

ORGANIZATION STRUCTURE

Faculty of Mining and Petroleum Engineering

LABORATORIES

1. Minerals Exploration & Evaluation
2. Mineralogy, Microscopes and Geochemistry
3. Hydrogeology and Hidrogeokimia
4. Geomechanics & Mining Equipment
5. Mining Environment
6. Mining Valuation and Planning
7. Mineral Economics and Computing
8. Processing of Minerals
9. Analysis of Mineral and Coals
10. Characterization and Modeling Physical Properties of Rocks
11. Pyrometallurgy
12. Floating Alloy and Characteristic
13. Hydro and Electrometallurgy
14. Reliability Metals and Corrosion
15. Instrumentation and Electronics Geophysics
16. Computational Geophysics
17. Engineering and Environmental Geophysics
18. Seismology and Geodynamics
19. Volcanology and Geothermal
20. Lab. Solid Oxide System
21. Geophysical Exploration
22. Petroleum Engineering Computation
23. Geothermal Engineering
24. Reservoir Engineering
25. Production computing
26. Production optimization
27. Well stimulation
28. Drilling and Production
